

AICOG 2025 - JIO World Convention Centre, BKC, Mumbai - 8th January 2025			
Title of Workshop	Basic Subfertility - First Glimpse, Lasting Impression		
Coordinators	Dr B Kalpana & Dr Rohan Palshetkar		
Need Assessment	Expert-led lectures covering basic fertility workup and treatments Interactive care-based discussions to enhance awareness regarding the workup of infertility patients along with other pathologies such as poor ovarian reserve, PCOS and thin endometrium. Networking opportunities with peers and faculty members to facilitate knowledge exchange and collaboration. Access to resources and references for ongoing learning and professional development.		
Description	This workshop is designed to provide all gynaecologists an insight into a clear understanding of how to approach an infertile couple and solve various conditions of infertility. In addition we wish to impart knowledge on the basics of an IUI along with interesting case based scenarios and practicality of performing the IUI procedures		
Learning Objectives	To understand basic approach towards infertility management and treatment. Address common medical scenarios in infertility like POR, PCOS etc. Develop an understanding of the requirements of a Level 1 center and also understand the basics of an IUI process		
Hall			
Time	Topic	Speaker / Moderator	Panelists
