

AICOG 2025 - JIO World Convention Centre, BKC, Mumbai - 8th January 2025			
Title of Workshop	Birth by Design: Unravelling Complexities of Operative Birth		
Coordinators	Dr. Surekha Tayade, Dr. Kiran Pandey		
Need Assessment	<p>Expert-led lectures covering operative Childbirth.</p> <p>Interactive care-based discussions and panels to enhance knowledge and skills regarding operative childbirth</p> <p>Video demonstrations of Operative Skills</p> <p>Networking opportunities with peers and faculty members to facilitate knowledge exchange and collaboration.</p> <p>Access to resources and references for ongoing learning and professional development.</p>		
Description	<p>The comprehensive operative childbirth workshop is designed to provide healthcare professionals with a clear understanding of the various complexities involved in operative childbirth.</p> <p>The hands on workshop will cover essential theoretical knowledge, practical skills and vision to enhance participants knowledge and skills regarding various operations linked to childbirth</p>		
Learning Objectives	<p>Understand the Indications for Operative Delivery.</p> <p>Master Surgical Techniques for Operative Deliveries.</p> <p>Demonstrate proficiency in performing cesarean sections, vacuum-assisted deliveries, forceps deliveries & Oden device.</p> <p>Understand the step-by-step procedures and technical nuances of each operative technique.</p> <p>Assess the short-term and long-term outcomes associated with operative deliveries for both mothers and babies.</p> <p>Recognize the potential risks and benefits of different operative approaches.</p> <p>Implement evidence-based strategies for postoperative care following operative deliveries.</p> <p>Address common postpartum complications and optimize maternal recovery.</p> <p>Anticipate and manage complications that may arise during operative deliveries, such as hemorrhage, fetal distress, and surgical complications.</p>		
Hall Name			
Time		Speaker / Moderator	Panelists
09:00 - 10:00	Session 1: Chairpersons: 3		
09:00-09:15	Clinical Guidelines and Decision-Making in Operative Deliveries		
09:15-09:30	Difficult C section- Maneuring with transformative skills		
09:30-09:45	Operative delivery in maternal collapse - Courage, Command, Communication		
09:45-10:00	Operative Vaginal delivery and its place in modern obstetrics		
10:00-11:00	Session 2 - Debates Judges: 3		
10:00-10:15	1) Cesarean Section - to do or not to do (For 6 minutes, Against 6 min 3 min discussion)		
10:15-10:30	2) Trial of Labor After Cesarean (TOLAC) vs. Elective Repeat Cesarean Section (ERCS): (For 6 min, Against 6 min, 3 min discusiion)		
10:30-10:45	3) Vaginal Breech delivery versus C section for breech presentation ((For 6 minutes, Against 6 min 3 min discussion)		
10:45-11:00	Session 3- Short Kahoot Quiz for Audience Participation on Cesarean Section with Attractive Prizes Quiz Masters - 2		
11:00 - 11.40	Session 4: Video demonstrations of Operative skills Chairpersons: 3		
11.00 - 11.10	Misgav Ladach technique - Revisiting the recommendations		
11.10 - 11.20	Extraperitoneal C section - from novice to mastery		
11.20 - 11.30	Focrcpeps and Vacuum - Video feast		
11.30 - 11.40	Oden device - step by step approach for application in clinical practice		
11:40 - 12:20	Session 5: Panel 1 - Complications during and after Cesarean section Moderators - 2 Experts -2 Panelists -10		
12:20 - 13:00	Session 6: Panel 1 - Operative Procedure for Placental Disorders - Navigating through nightmares Moderators - 2 Experts -2 Panelists -10
